

WATMAN

WATMAN

INTERNATIONAL CONFERENCE

AUG 2024

PRAGATI MAIDAN, NEW DELHI

**SUSTAINABLE SOLUTIONS FOR WATER AND
WASTEWATER MANAGEMENT IN A CHANGING WORLD**

Information for Presenters

Call for Paper

Submit your research papers, case studies, and proposals related to sustainable water and wastewater management for presentation at the conference to be held at Pragati Maidan, New Delhi, India on 29 & 30 August 2024.

Submit Abstract

Submit Abstracts oral presentation latest by 25 July 2024. Abstracts will be evaluated based on relevance, uniqueness/originality, technical content, and clarity. The abstract should be submitted in not more than 300 words to info@watertoday.org / editor@watertoday.org

Important Dates

ABSTRACT SUBMISSION DEADLINE
25 July 2024

EXTENDED ABSTRACT SUBMISSION DEADLINE
30 July 2024

AUTHORS' NOTIFICATION
14 Aug 2024

ORGANIZED BY:

WATER TODAY PVT. LTD

3D, IIIrd Floor Bhagheeratha Residency, 124 Marshall's Road, Egmore, Chennai - 600 008, Tamil Nadu, India.

Email: info@watertoday.org | editor@watertoday.org

Web: www.watman.waterexpo.biz

Delegates

Who Should Attend?

- ➔ Water and Wastewater Professionals
- ➔ Engineers and Technologists
- ➔ Environmental Scientists
- ➔ Government Officials and Regulators
- ➔ Academics and Researchers
- ➔ Industry Suppliers and Consultants

Why Attend?

- ➔ Gain insights from renowned experts in the field
- ➔ Explore innovative technologies and solutions
- ➔ Collaborate with peers and stakeholders
- ➔ Contribute to shaping the future of water and wastewater management

Delegate Registration Payment

Delegate	Physical
Inaugural offer till 31st May	₹ 3,000
Early Bird offer till 31st July	₹ 4,000
Actual Rate	₹ 6,000

Student Delegate	Physical
Inaugural offer till 31st May	₹ 1,000
Inaugural offer till 31st May	₹ 1,500
Actual Rate	₹ 2,000

+ 18 % GST APPLICABLE

About WATMAN International Conference

Welcome to The WATMAN International Conference 2024! WATMAN is an annual event dedicated to addressing the most pressing challenges and innovative solutions in water and wastewater management. The WATMAN International Conference presents the latest scientific advances and practical applications in water and wastewater treatment, cutting across a wide range of industries, technologies, and functional areas.

Over the years, the themes of the WATMAN International Conference have covered critical issues that are the need of the hour. The conference provides a unique opportunity for professionals worldwide to learn, share and present the latest findings and insights regarding management, preparedness and functioning in water-scarce environments, industrial effluent management, wastewater management, wastewater treatment technologies and water reclamation.

Today it showcases the shift towards the latest treatment technologies, purification methods, management techniques, operation & maintenance, and remote monitoring – the entire gamut of water & wastewater management.

Conference Theme

Sustainable Solutions for Water and Wastewater Management in a Changing World

This year, our focus is on sustainability, recognizing the urgent need to adapt to environmental changes while ensuring the availability of clean water for all.

In a world where environmental dynamics are constantly shifting, the need for sustainable water and wastewater management solutions is paramount. Join us as we explore innovative strategies to navigate these changes, ensuring the preservation of our precious water resources for generations to come. Let's collaborate towards a future where clean water is accessible to all, despite the challenges of our changing environment.

The WATMAN International conference aims to bring together stakeholders, industry experts, scientists, water practitioners, and researchers, to exchange and share their experiences and research in the field of water and wastewater. It also provides a platform for presenting and discussing recent innovations, trends, and practical challenges in the field of water and wastewater treatment. The conference aims to promote cooperation between industries, researchers and water practitioners to solve issues related to the water and wastewater treatment sector.

WATMAN INTERNATIONAL CONFERENCE TOPICS

- ➔ Decentralised Wastewater Treatment Systems
- ➔ Innovations in Water Reuse and Resource Recovery
- ➔ Urban Water Management and Infrastructure Development
- ➔ Innovative Desalination Technologies for Freshwater Production
- ➔ Smart Water Technologies and Digitalization in Water/ Wastewater Management
- ➔ Energy-Efficient Technologies in Water and Wastewater Treatment Plants
- ➔ Advanced Membrane Technologies in Wastewater Treatment
- ➔ Bioremediation Techniques for Wastewater Treatment
- ➔ Upgradation of Conventional Sewage Treatment Plant
- ➔ Innovative Approaches to Sludge Management and Utilization
